Welcome Words

Welcome Address of Mr. Laurent Petrynka President of International School Sport Federation

Dear Members,
Dear School Sport colleagues,

It is **always** a great pleasure when welcoming you to a new edition of the main ISF event, the Gymnasiade.

This 19th edition that will be hosted by France in Normandy, will particularly mirror the aims and goals of ISF. For this edition we will include for the first time in the Gymnasiade, twenty sports including three para sports, alongside an educational programme that will be developed on a daily basis and based on two pillars: the Fun and Skills zone; as well as the Conference and Seminars.

The Gymnasiade is a unique opportunity for participants to build a pathway in their sport career by experiencing a worldwide high-level multi-sport event, organised in cooperation with the most respected and renowned International Sport Federations.

It is also an opportunity to become acquainted with the main societal topics that are advocated by ISF in order to strengthen the role and impact of school sport as well as support in acquiring and developing leadership skills. Primarily, these topics include Gender Equality, Safeguarding of Children in sport, Healthy lifestyle, Sustainable Development, Sport Officials as key experiences for youth whilst enjoying quality physical education.

The Organising Committee of the 19th ISF Gymnasiade (School Summer Games) Normandy 2022, the French School Sport Federation (UNSS), ISF members and experts are fully committed to creating a safe and professional environment in which to deliver this edition of the Gymnasiade that is taking place all around Normandy with the centre being in the city of Deauville.

With a rich culture and history, Normandy is a particularly interesting Region for the youth to discover, whilst enjoying and experiencing the ISF Gymnasiade event.

We await the pleasure of meeting you, to experience together a great event in Normandy made up of great sporting performances and exchanges during the variety of educational events. We wish you all a wonderful time at ISF Gymnasiade Normandy 2022.

Yours faithfully,

Laurent Petrynka – ISF President

Welcome Words

Welcome Address of Mr. Olivier Girault UNSS National Director

Dear School Sport colleagues,

What a pleasure to welcome you to France, in Normandy, for the 19th edition of the ISF Gymnasiade School Sport Summer Games 2022!

France is a sporting nation, a great land of hospitality and education, and above all a great country of school sport.

The Union Nationale du Sport Scolaire, the federation that I have the honour of leading, is chaired by the Minister of National Education, Youth and Sport. You can easily understand how important it is for our federation to welcome all the youth of the world and the entire family of school sport around sport and education: to that I would like to say that "yes" we are school sport!

Organising the largest school sport event in the world, the ISF and our federation are facing our biggest challenge yet. We are lucky, we have learned a lot from all the ISF events organised by friendly member countries for so many years.

It is a challenge, it is also a great honour. The programme that has been thought out and implemented for so many years will come to fruition in May 2022, to provide an exceptional experience for the youth of the world.

I would like to give a special mention to all the stakeholders of this unique organisation, supported at the highest level of the French State.

Furthermore, I would like to thank all our partners, cities (in particular Deauville, Caen, Le Havre, Rouen, Montivilliers, Grandville, Val de Reuil, Pont Audemer, Ecouves), departments (Calvados, Seine Maritime, Eure, Orne and Manche), and the Normandy region. Additionally, I would like especially thank the "Normandy Academy" who's support is vital for this event: sport and education are at the heart of Normandy 2022.

All together, we will do everything we can to deliver the most beautiful event in the best health and safety conditions.

We will share much more than sport, much more than school sport during this event, through common values: culture, sports, education, meeting, sharing, sustainable development, legacy etc. Normandy, the region where you will experience this Gymnasiade, is a unique part of the world: come and meet us! Come and experience the games before the games, 2 years before the Paris 2024 Olympic and Paralympic Games!

Long live the 19th edition of the ISF School Summer Games 2022, long live school sport!

Olivier Girault - UNSS National Director

A COMMITMENT FOR THE FUTURE

The Sustainable Development Goals give us the roadmap to achieve a better and more sustainable future for all. They respond to the global challenges we face, including those related to poverty, inequality, climate, environmental degradation, prosperity, peace and justice. The goals are interconnected and, in order to leave no one behind, it is important to achieve each of them, and each of their targets, by 2030.

From these 17 objectives, we wish to initiate a global dynamic, during this gymnasiade, to move towards an even more responsible school sport. This gymnasiade, through concrete and voluntary examples (waste management, anti-food waste, carbon offsetting, etc.), opens the way and wishes to bring all the member countries of the ISF in its wake.

Wednesday May 18 afternoon

During the ISF Forum day on Wednesday 18 May, the afternoon is devoted to this theme of sustainable development in sport. We will debate together to find solutions, with the local constraints of each country, to contribute to the fight against climate change through our sports practices.

A manifesto will be written at this time in order to leave a legacy of our gymnasiade.

5. General information on Covid-19

According to the World Health Organization (WHO), COVID19 is an infectious disease caused by the SARS-CoV-2 virus. Most people infected with the virus have mild to moderate respiratory illness and recover without the need for special treatment. However, some people become seriously ill and require medical attention. Elderly people and those with underlying illnesses such as cardiovascular disease, diabetes, chronic respiratory disease or cancer can develop severe illness. Anyone, regardless of age, can get COVID-19.

The most common symptoms are:

- Unusual fatigue
- Nasal obstruction/sore throat
- Fever
- Difficulty breathing/coughing/chest tightness - Loss of smell or taste
- Nausea/vomiting/diarrhea
- Muscle pain/ hammy
- Headaches,
- Palpitations at rest

More specifically, for spinal cord injured athletes above T6, the following symptoms should be monitored:

- Increased blood pressure - Severe headaches
- Sweating spells, chills
- Unusual spasticity
- Neuropathic pain - Unusual fatigue

6. Regulations in France (governmental measures as of 24/03/2022)

<https://www.gouvernement.fr/infocoronavirus>

It is imperative to continue to scrupulously respect the barrier gestures: wearing a mask in places where it is mandatory, hand washing, regular ventilation of rooms, coughing or sneezing into one's elbow, using a single-use tissue.

Wearing a mask, which was no longer mandatory in the public space outdoors (since February 2) and in enclosed areas subject to the "vaccine pass" (since February 28) is no longer required in any place, such as schools or businesses.

Exception to the removal of this requirement: the wearing of masks remains mandatory in all transport and for caregivers, patients and visitors to health and care facilities (including hospitals, pharmacies, and medical laboratories).

Wearing a mask is still recommended in enclosed spaces and in large gatherings for people who are vulnerable because of their age or their pathologies.

Failure to wear the mask may result in the following penalties:

- Warning
- Ticket by the competent authorities according to the regulations in force in France
- Temporary suspension
- Exclusion

Any violation of the obligations or any positive case will be reported to the organizers and to the medical commission who will decide on the possible consequences related to the competition.

7. Description of the health protocol of the event

1. Implementation of the sanitary protocol

The event will take place with the implementation of a health protocol upon arrival including transportation from the airport or place of arrival, accommodation, catering, sports site and departure.

1. Accreditations

An accreditation center will be set up at the CID from May 13 to 22.. As of March 24, 2022, no health/vaccination pass or negative test will be required to recover accreditation. In the event of a reinforced health doctrine, a system will have to be put in place to differentiate between people with a complete vaccination schedule and those who have not been vaccinated (color code on the accreditation, bracelet, etc.).

2. Accommodation

The organizers work in close collaboration with the managers of the hotels and campsites to ensure that the sanitary protocol is respected throughout the competition. Thus, the staff of the establishments will be aware of this protocol and the volunteers of the organization will see to it and help with its application.

Accommodations will be set aside for covid 19 positive individuals who require isolation. The following protocol will be applied within the accommodations:

- An access control with accreditation will be carried out at the entrance of the hotels and campsites by an authorized person
- For campsites welcoming clients on a year-round basis, these clients will not have access to the campsite infrastructures during the event, except for their accommodation. A control will be carried out by an authorized person
- Hydro-alcoholic gel and masks will be made available in several places in the accommodations
- Conference rooms will be cleaned and disinfected between each use

7.1.3 Catering

- Between each service, the areas will be cleaned and disinfected
- Waiting areas will be marked on the ground, signs will be put up to establish a unique circulation direction and posters will remind the sanitary instructions
- Hydro-alcoholic gel will be available

7.1.4 Transports

The following protocol will be used for transportation:

- Delegations' journeys will be grouped and planned in order to avoid interactions
- The driver will be masked during the whole trip
- Passengers must wear a mask during the trip

- Each delegation will have a checkroom and a box
- Spaces will be set aside in the stands to avoid interactions with the public
- Sanitary facilities will be reserved exclusively for delegations
- One-way traffic will be established to avoid interactions
- Equipment used by different people (door handles, sports equipment, balls, scoring tables, benches, chairs...) will be disinfected# regularly

6. Awarding of medals

Protocol ceremonies will respect a distance of one meter between the medalists. The medals will be removed by the medalists on the medal presentation stand. No hugging.

7. Opening Ceremony

- Strolling: During this outdoor strolling in the streets of Deauville, the delegations will have to respect at best a distance of 1m between each participant. During the gathering of almost all of the delegations to follow the ceremony outdoors on a giant screen, the participants will respect at best the distances
- Delegations presentation: A limited number of athletes per delegation will have access to the CID to appear on stage.

8. Health measures for the Event

In order to prevent infection and stop the transmission of COVID-19, a number of guidelines are recommended. The organizers will make every effort to ensure the effective implementation of these recommendations.

Health Doctrine in effect as of March 24, 2022 :

- The wearing of masks is no longer mandatory in France since March 2022 in the ERP, including outdoor and indoor events.
People wishing to keep wearing a mask are of course invited to do so
- Ventilation, cleaning and disinfection of spaces: Enclosed spaces and transport vehicles will be regularly ventilated and disinfected. A sufficient number of garbage cans will be placed in all the areas where the stakeholders will be accommodated.
- Hand washing: In order for participants to regularly wash their hands with soap and water or clean them with an alcohol-based hand sanitizer, the organizers will ensure that the necessary supplies are available at the various sites. Hand sanitizing stations will be provided at the entrance of the sites and the various dedicated areas.
- Documentation on barrier measures and good practices will be displayed on the competition site, accommodation and vehicle.
The official documentation is available on the Santé Publique France website in English and French

Health Doctrine reinforced only in the event of an epidemic resurgence

- Maintaining a physical distance between people and groups: When physically possible, the principle is physical distance of at least one meter between people. Distancing between groups must also be maintained. In spaces with waiting areas (restaurants, queues, grandstands), visible signage will be installed on the furniture, the floor and the walls to ensure that physical separation is maintained.
- Masks must be worn on all sites (indoor and outdoor)
- Systematization of daily self-tests for all delegations and organizers

9. Welcome protocol for the public

The competition is open to the public and will have to respect the framework set by the governmental measures and the prefectural decisions in force at the date of the event. As of the date of the event, gatherings are no longer limited to indoor areas. The reception of the public will be done according to the following protocol:

13. Conclusions

We remind you that the rules contained in this health protocol are binding and that anyone participating in this event, in one capacity or another, undertakes to respect them.

As this event will bring together 64 delegations and 3,600 participants (as of May 11 2022), it will be particularly closely monitored in the current health context.

This obliges us all to be exemplary and professional in the fight against the transmission of the virus.

These measures may be modified at any time by the organizers, under the impulse of the competent and federal authorities (French government, prefecture, ARS, city halls).

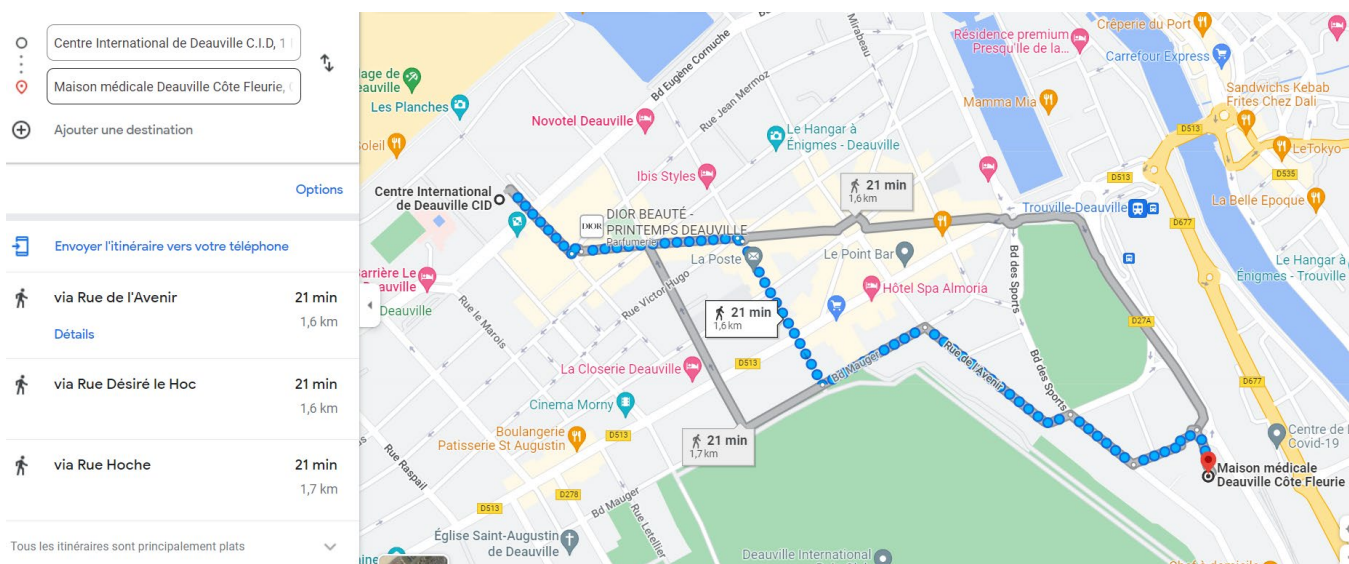

We count once again on the civic sense and the sense of responsibility of each and everyone to ensure the smooth running of this competition and to preserve the health safety of all.
