

# ISF YOUNG REPORTERS

P R O G R A M M E

PLAN &  
PROGRAM

- workshops
- schedule

# Hi there you, ISF Young Reporter!

Congrats!

You are the first generation to get certified at the ISF Academy participating in ISF Young Reporters Programme!

Make sure your School Sports Organization registered you properly and covered the fees. If so, pack warm, because there's a lot of snow at ISF Winter Gymnasiade Erzurum 2023!

## Responsibilities

- attend all the workshops full time
- deliver the needed tasks
- make sure you are not late for the workshops, events, and meetings
- try to wear the ISF (Young Reporters) uniform at all times
- respect the rules, deadlines, and staff
- make sure you don't interrupt the competition or training
- communicate, help others, and work in a team
- give your best and enjoy!

## Requirements:

- laptop
- phone
- enthusiasm

# WORKSHOPS

It's education time!  
What to expect?

## BIG SPORTING EVENTS ORGANIZATION

The first workshop will give you a chance to learn about the organization of big sports events. You will learn how it is to be a sports manager and how to build the event from scratch. You might not work on event organization during the education but you will learn how to stay organized and prepare for your own tasks for the upcoming days during the ISF Winter Gymnasiade.

## PHOTOGRAPHY & SOCIAL MEDIA CONTENT CREATION

After you learned how to plan your tasks and working day, you'll have an opportunity to learn about photography and how to create perfect social media content. This is your time to show your creativity and digital skills. Professionals and Influencers will teach you how to catch a perfect picture, how to find social media trends, and how to create and edit digital content. Later, you will practice at the sports venues and event.

## SCHOOL SPORTS JOURNALISM & MEDIA

Now that you know that part of your tasks is storytelling followed by good social media content and photography, you are ready to create a written or video story! Great sports journalists will teach you how to do a proper interview and beat stage fright. You will write a lot of articles and record a lot of videos where you are the main host! Are you ready to become a real sports reporter?

## BROADCASTING & VIDEO MAKING

Every big event has a big audience, sometimes at stands, sometimes online, sometimes in front of the small screens all of the above! You will have an amazing opportunity to see how broadcasting works! Get ready to see big cameras, studios, and what is needed to deliver a sports competition to your home. Later, you will learn about videomaking and create a video for the closing ceremony of the event!

Workshops are divided into two parts:  
Education and Practice.

Education is happening in Athletes Village.  
Practice is happening around the venues.

# Education workshop schedule

First 4 days

ISF YOUNG  
REPORTERS  
P R O G R A M

# READY TO WORK LIKE A PRO?

ISF YOUNG  
REPORTERS  
P R O G R A M

You are on your own now!

You'll have a lot of fun!

The first part of the day you will spend learning from professionals and improving your knowledge and skills through the workshops and practice onfield.

Every day you'll be able to test what you learned through the morning and after successfully passing all four workshops, you are ready to work like a professional!

Make your own schedule following the events happening at the Gymnasiade and build your own set of tasks. Don't forget to work in a team and deliver needed and shared goals.

**Don't be late for the Morning and Recap Meetings!**

Here is the schedule to remind you what is there not to be missed to be experienced, visited but also communicated about:

**17.2.2023.**

**Briefing**

9:30 - 10:00
