# WELCOME WORDS

Student-athletes, delegation leaders, CBDE family, ISF family, and community, welcome to the ISF U15 Gymnasiade 2023 (2023 World School Games). This is the largest school competition on the planet, to be held in the Marvelous City of Rio de Janeiro.

The Brazilian School Sports Confederation (CBDE), as the Local Organizing Committee of the Games, takes pride in hosting the ISF U15 Gymnasiade 2023.

To understand the magnitude of this edition, it is essential to know the history of CBDE. The Confederation was established in the year 2000, with its focus on developing school sports in Brazil. During this time, sports were gaining importance and recognition, being seen as a way to encourage sports practice among students and contribute to their holistic development. Undoubtedly, one of the highlights of CBDE is its national sports events, which are intrinsically linked to the global sports landscape. Through affiliation and partnership with the International School Sport Federation (ISF), CBDE provides young Brazilian student-athletes the opportunity to compete in internationally renowned events. It is an honor for CBDE to host the ISF U15 Gymnasiade 2023 on our land, further connecting Brazilian school sports with the world.

In this journey, we cannot express enough gratitude to the partners and supporters who make ISF U15 Gymnasiade 2023 possible.

Firstly, we would like to thank the Ministry of Sports, the Government of the State of Rio de Janeiro, the State Secretary of Sports and Leisure of Rio de Janeiro, the Municipal Government of Rio de Janeiro, Social Service of Commerce – SESC, VALE through the Sports Incentive Law of the Ministry of Sports. This team has been a great partner in promoting school sports and developing new talents. We also thank Kinder Chocolate and other institutions that believe in and support the significance of sports practice for youth development and social progress.

It's crucial to highlight that ISF U15 Gymnasiade 2023 will take place in Rio de Janeiro, a marvelous city that has previously hosted mega sports events, including the 2007 Pan American Games; FIFA Confederations Cup 2013; FIFA World Cup 2014; and the Rio 2016 Olympic and Paralympic Games. The Olympic Park in Barra, Rio de Janeiro, an Olympic legacy, will once again be the stage for one of the world's major competitions, shaping the lives of over 2,000 new talents from around the globe, gathering in an environment that is a global benchmark for sportsmanship and cultural integration.

We are eagerly looking forward to welcoming all participants of the ISF U15 Gymnasiade 2023. Let this competition embody sporting excellence, camaraderie among student-athletes, fair play, and contribute to the for fica on and unity of international relations through school sports.

**Antônio Hora Filho, CBDE President**

# WELCOME WORDS

## Highest authority of Brazil

I welcome all participants of Gymnasiade 2023, which, after a decade, is happening once again in Brazil. With great pride, we host the world's largest school competition. The vibrant city of Rio de Janeiro eagerly awaits the Gymnasiade, opening its arms to athletes from around the globe, representing 40 countries. From August 18th to 27th, the global school sports community will unite to celebrate the resilience and strength of young athletes aged 13 to 15, competing across 18 disciplines. Brazil is privileged to host the grandest Gymnasiade to date, with a remarkable 4,000 students from both public and private schools embracing their roles in sports. Our vision for Brazil involves nurturing the foundation of sports, promoting physical activities that resonate with the majority of our population. Our efforts are geared towards cultivating student-athletes within every school, empowering them to find in sports not only leisure but also a support system, character development, and perhaps even a path to a professional career. The Federal Government's agenda prioritizes democratizing sports participation and championing gender equality in sports. We are committed to ensuring universal access to sports facilities and fostering an environment where women's sports flourish, benefiting from the same level of attention and care as men's sports. We firmly believe that a strong sports nation is built from the very beginning. The pinnacle of performance is only possible when we focus on nurturing youth sports, providing support for those at the foundation. Hence, with

unwavering focus, we are constructing the National Sports Development Network. This platform will outline clear strategies, guiding our journey towards ensuring that children, youth, adults, and seniors can engage in sports actively and equitably. Our National Women's Soccer Strategy will shed light on the growth of young girls and women who aspire to contribute to soccer in Brazil, both recreationally and professionally. Brazil's aspiration is clear: to foster inclusivity and accessibility in the realm of sports.

With immense pride, the Olympic Park in Barra, located in Rio de Janeiro, will host this international competition, which inherently supports the essence of foundational sports. We are delighted to contribute to the global sports community. Brazil's decision to host the world school games reinforces our commitment to fostering sports growth in a holistic and equitable manner.

I encourage you all to approach this event with determination, bringing forth numerous smiles, unwavering dedication, sweat, and remarkable accomplishments. Above all, may the spirit of unity, personal growth, camaraderie, and cherished memories be your constant companions. Enjoy the experience and take pleasure in every moment. Here's to an outstanding Gymnasiade for everyone!

**Ana Moser, Minister of Sports.**

# EDUCACTIVITIES

## SUSTAINABLE DEVELOPMENT

In adherence to sustainable practices, the project envisions the development of activities focused on environmental awareness, targeting not only the participants of ISF U15 Gymnasiade 2023 but also the entire society. In alignment with this approach, the proposed sustainability practices aim to expand this process of environmental consciousness, recognizing the significance of recycling reusable materials, such as plastic.

To achieve this, during the ISF U15 Gymnasiade 2023, a day will be dedicated to raising awareness among participants, involving athletes and the community in a cleanup effort at the Olympic Park in Rio de Janeiro. This effort will particularly focus on competition venues, the gathering center, and other areas. The collected materials will be made available to the cooperative for selective collection and recycling of plastic materials in the city of Rio de Janeiro.

# ISF ACADEMY

Created in December 2022, the ISF Academy is the new educational center of the International School Sport Federation delivering online and onsite capacity-building activities for teachers, school sports representatives, coaches, officials, and students around the world. It aims to recognize and or to upgrade the knowledge and skills of any of these stakeholders involved or planning to be involved in national, continental, or international sports, educational networks, institutions, events, or organization.

The mission of this body is to design and deliver short-, mid-, and long-term quality education and capacity-building activities for

physical education teachers, national school sport representatives, coaches, officials, and students around the world. These educational programmes will be held online on the ISF Academy platform prior to the events and particularly during the organization of ISF events on-site, after the competition hours. Therefore, before and during this international ISF event, heads of delegation, coaches, referees, international school athletes, and local school students will have the opportunity to take part in various interactive educational activities on different topics

Scan the QR Code to have access to the program at the end of the session

## EDUCATION ACTIVITIES DURING EVENT

You will find below the list of themes that will be proposed to young athletes, Coaches and PE.

PE Teachers from Brazil /event coaches during this event:

- United World Wrestling - UWW
- FIBA Workshops
- Badminton World Federation – BWF Workshops

Workshops (For athletes Only)

- Artistic Activities – Painting and Sculpting

In the Fun and Skills Zone, the athletes participating in the event will have the opportunity to take part in artistic activities. These painting and sculpting activities animated by Ms Diane de Navacelle de Coubertin will be the opportunity to gather the young participants who will have the opportunity to express their artistic imagination around sport and related to the olympism values. Do not hesitate to join the artistic stand from the 21 to the 25 August in the Olympic Park.

## SAFEGUARDING CHILDREN IN SPORT

We believe that children have the inner resources if educated, to fully understand, identify and react in front of negative behavior such as racism, gender inequity or violence and abuse. The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people for them, not only to understand but also to appropriately apprehend this issue and be able to react in facing it.

Creating awareness and giving the opportunity for the participants to be able to transfer their knowledge when getting back home to their peers is also key to ISF.

Using storytelling, technical basic information,

and fostering discussion, the Safeguarding workshop aims to give a clear understanding of the issues surrounding safeguarding in sport. It also aims to give youngsters the knowledge to identify and name abusive behaviors and understand how to react in such cases.

And finally, this class aims to give young people the tools to understand that it's not their fault, that they can ask for help, and where to find help.

With the adoption of the ISF-Safe Sport Event Policy (which you will find in the appendix), the ISF assures that all ISF participants evolve in an environment free from any form of non-accidental violence.

## ANTI-DOPING EDUCATION

Anti-doping education is of the utmost importance for young people due to several compelling reasons and we believe that young people have the inner resources to fully understand, identify and react in front of negative behavior such as doping. The challenge for ISF is to find the right way to express difficult ideas and present complicated topics to young people for them, not only to understand but also to appropriately apprehend this issue and be able to react if facing it. Creating awareness and giving the opportunity for the participants to be able to transfer their knowledge when getting back home to their peers is also key to ISF. Anti-doping education goes beyond the realm of sports. It serves as a platform to impart valuable life lessons and cultivate ethical values in young individuals.

By emphasizing the importance of honesty, integrity, and personal responsibility, anti-doping education contributes to the moral development of young athletes. It encourages them to make informed choices, stand up against cheating, and develop a strong sense of integrity that extends beyond the realm of sports and into other aspects of their lives. Antidoping education plays a crucial role in shaping the attitudes and behaviors of young people involved in sports.

Educating them about the risks, consequences, and ethical implications of doping, promotes health, fair play, and integrity while providing them with the necessary tools to make informed decisions that align with their long-term well-being and athletic aspirations.

The law and the rules are important, but it is not just rules that safeguard our sport for clean athletes, but also the measures and processes that help put those rules into action. We must all play our part in promoting fair play and that means gaining an appreciation of what leads to certain decisions being made.

Ranking order in the groups:

- If two players/pairs have won the same number of games, the ranking will be decided by the result of the tie between them.
- If three or more players/pairs have won the same number of games, ranking will be decided by the total number of matches won. If this leaves two players/pairs equal, ranking will be decided by the result of the tie between them.
- If three or more players/pairs have won the same number of games and the same number of matches, ranking will be decided by the difference between total games won and total games lost, with greater difference ranked higher. If this leaves two players/pairs equal, ranking will be decided by the result of the tie between them.
- If three or more players/pairs have won the same number of games and the same number of matches and have the same difference between total games won and total games lost, ranking will be decided by the difference between total points won and total points lost, with greater difference ranked higher. If this leaves two players/pairs equal, ranking will be decided by the result of the tie between them.

- If three or more players/pairs have won the same number of games and the same number of matches, have the same difference between total games won and total games lost, and have the same difference between total points won and total points lost, ranking will be decided by drawing lots.

- Knock-out stage:

- The knock-out stage shall be a knock-out draw with winning players/pairs progressing to the next round until a winner is found.
- However all players will proceed to a second stage so that there will be a full ranking for each event except that no game will be played to decide 3rd & 4th place with both losing semi-finalists being awarded bronze medals.

### Competition Format

The system of play shall depend on the final number of entries in the tournament. It starts with groups (in each group all players play all other players) followed by a knockout stage. Players will be placed in preliminary groups of 3-4 players. Depending on the number of entries the elimination stage could start from 1/8 final or quarterfinal.

## 2. TECHNICAL REGULATIONS

Athletes born in: **2008 / 2009 / 2010**

All participants and officials must be accredited. During accreditation, the teams must submit, on the USB stick, the music to which they perform their choreography. Accreditation cards/ID cards need to be worn at all times.

Access to the training and competition venue is guaranteed only by showing the accreditation cards/ID cards.

The presence of a coach is mandatory. Teams or individuals cannot participate in the training and competition without the presence of a coach.

All athletes should be present a minimum of 30 minutes before they start their rehearsal, training or competition.

### TEAMS HIP HOP & PERFORMING

Performing rules for teams

**1.** Teams competing will perform a choreographed routine to demonstrate their style and expertise. The duration of the music must be minimum 2.30 – maximum 3.30 minutes. Teams not complying with the time limit requirements may be given a 0.5 deduction.

**2.** Formal entrances which involve dance or technical skills are not permitted. Athletes should enter the performance area in a timely fashion. Entrances/exits will not be judged as part of the routine and should not exceed 15 seconds each.

**3.** All performers (unless injured) must remain within the performance area throughout the entire performance. Dancers can only enter and exit the performance area through the designated entry and exit points.

**4.** Substitutions may be made in the event in a case of any injury or other serious circumstance. Substitutes must also abide by the age restrictions in all divisions in which they compete. The substitutes members have been listed on entry form also.

**5.** All staging, backdrops, special effects, costumes, or any items that may damage or otherwise alter the performance floor or environment, including backstage and practice area, are prohibited, including water, baby powder, sliding oil, fire, feathers, etc.

**6.** The team's name will be called twice: once as the team is on deck and once as the performing team.

**7.** The timetable of teams performing is determined by alphabetical order (by the name of the team or country that the team represents).

### Music information

At the moment of the accreditation, the head of delegation must deliver USB stick that contains a single music track, with the chosen music. Each USB must be labelled showing at least: name of the team, music title, music composer.

Coaches are strongly advised to create routines (mix music) that finish a few seconds under the time limit to ensure that the team does not go over time.

In the event a technical error causes a team's music to be interrupted, the coach will have the opportunity to stop the performance and begin again immediately. It is recommended that coaches have a backup USB with them.

Judging and timing will resume from the point at which the malfunction occurred as determined by the judges.

### Costumes and choreography rules

All facets of a performance or routine, including choreography, music selection and outfitting (dance uniforms or costumes), should be suitable for family viewing and listening.

Routines, music and uniforms/costumes for

all team should be appropriate for the age of the participants performing the routine. Costume should be appropriate and according to the good taste rule.

An athlete's costume must cover the intimate part of the body, bosom and bottom. The "intimacy area" must be covered by trousers in tight pant style. Trousers may not be transparent or "body – colored".

Costume and make-up must be appropriate to the age category and type of competition.

Costume approval must be submitted before the start of the competition with at least one (1) athlete wearing the costume in question. Front and back views of costume must be shown. Suggestive, offensive, or vulgar choreography and/or music is inappropriate for family audiences and therefore lacks audience appeal. Any vulgar or suggestive movements (hip thrusting, inappropriate touching/slapping/positioning to one another, etc.), words, costuming or music will result in a 0.5 deduction per violation. Non-marking shoes or bare feet are acceptable when competing.

Jewelry as a part of a costume is allowed. Acceptable jewelry includes: small post stud earrings (in ear lobes only), chokers without dangling pendants, and hair accessories. Jewelry such as necklaces, hoop/dangling earrings, any piercings in any area other than the ear (belly, tongue and nose rings, etc.) is prohibited and will result in a 0.5 deduction per occurrence. Prohibited jewelry must be removed and may not be taped over or otherwise covered.

### **Safety violations**

A deduction will be given for each safety/general competition rule violation. The point value of this deduction will range from 0.5 to 2.5, depending upon the severity of the violation.

Deductions and/or penalties are assessed at the sole discretion of the ISF TC President based on the criteria set forth in the rules.

stop a routine, assess a deduction, and/or disqualify a team for a uniform distraction (i.e. garment not being securely fastened/a ched, straps break, pants split, etc.). Each performer is required to take the necessary steps to avoid inappropriate exposure prior to the performance.

If a ISF TC President stops the routine or a performer leaves the floor to adjust a uniform, a penalty or disqualification may result. The team may or may not be given an opportunity to return to complete their performance. Deductions will be given for vulgar or suggestive choreography, which includes but is not limited to, movements such as hip thrusting and inappropriate touching, gestures, hand/arm movements and signals, slapping, positioning of body parts and positioning to one another. Deductions will be given for music or words unsuitable for family listening, which includes, but is not limited to: swearwords and connotations of any type of sexual act or behavior, drugs, men on of specific parts of the body and/or violent acts or behavior. Removing improper language or words from a song and replacing with sound effects or other words constitutes inappropriate, and deductions will be made accordingly. Team will receive a 0.5 deduction.

### **Props**

Poms, hand held props and costuming may be used. Wearable and handheld items are allowed and can be removed and discarded from the body in a safe and controlled manner. If taken off and danced with, it becomes a prop.

Tricks and props such as chairs, backdrops and other accessories may be used in competition of teams as long as the items are consistent with the theme of the performance and any other rules, are related to the theme adopted, are brought onto the floor at the entry and given away at the time of the part athletes of the same team. At the end of the performance the team must leave the floor completely clear and clean.

## Dance lifts

Lifts and acrobatics may be used (duo and teams) provided that they do not form more than 20% of the choreography, and will be evaluated as part choreography. The executing athlete must receive support from a supporting athlete who is in direct contact with the performance surface at all times. At least one supporting athlete must maintain contact with executing athlete(s) throughout the entire skill.

## Scoring process

An absolute judgment is expressed through five criteria that indicate the value of the technical and artistic performances. Scores for each criteria will range from 0-10 set at each performance by every judge and will be entered into a computer system. All penalties will be deducted from the converted scale score to get the final score.

Judges do not determine or judge deductions or safety violations. Decisions made by Panel Judges are reviewed by the ISF TC President and deemed final.

## Judging scale and criteria

Total points received per caption consider overall quality and quantity of movement (both variety of elements and number of members performing element) throughout the routine. Appropriate difficulty level is considered for every caption, with the exception of Performance Impression.

Specific elements performed that are not listed in one of the following captions will be placed in corresponding captions at the discretion of the judges.

Marking scale for judges: 10 - Outstanding, 9 - Superior, 8 - Very Good, 7 - Good, 6 - Above Average, 5 - Average, 4 - Fair, 3 - Weak, 2 - Poor, 1 - Very Poor

**Judging criteria:** Performance impression, Uniformity, Quality of movement, Technical elements, Choreography and Staging. The competition will be judged by a minimum of three judges or another uneven number of judges.

## BREAKING

Depending on the number of registered athletes, qualification (preselection) will be organized. Athletes that did not qualify for the next round will also compete for the final standings if necessary.

### Battle Competition Format

After the qualifications (preselection), the final round will be organized.

The regulations below describe the following disciplines but can be applied for other formats as well (e.g. 3vs3 etc.):

- 1 vs 1 (girls and boys), with each set at a maximum of 60-90 seconds
- 2 vs 2 (duo-team battle), with each set at maximum of 90 seconds

Battles are to be contested without any physical contact on the part of the opponents; any physical altercations shall lead to warnings and potentially to disqualification, depending on the nature of the altercation. The battle competitions have two phases: a) Qualification (preselection) phase, b) Knock-out phase.

### Qualification (preselection) phase

In the qualifying phase of the competition, the competitors are divided into competition groups of 2 athletes. If the number of athletes is odd, there will be 3 competitors in the last group.

Judges evaluate all athletes based on the technical components (3D) and a ranking will be established, no winners will be elected directly after each battle.

After evaluating all competition groups, the judge award "x" to the athlete who passes to the next round. If there are athletes who share a place to enter the Knock-out phase of the competition, only these athletes will have an additional evaluation to determine the ranking.

### Knock-out phase

The top 16 athletes competing in 1vs1 or 2vs2 form of the competition who qualified for the finals of the battles are distributed according to the places won from the qualifications.

Each battle consists of a fixed number of rounds with each of the rounds following the same sequence: one athlete (or duo) performs a set first (red side), and then the other athlete (or duo) responds with a set (blue side). Those two sets comprise a round within a battle (each athlete has 2 exits).

In the event that at the end of the battle the judge's decision cannot determine who has more votes, it is necessary to make an additional round of competition (re-dance) for the judge who did not make a decision in a particular battle. Through an additional round of competition (re-dance) the judge must make the final decision. The final competition format will be decided by the ISF Technical Commission at the proposal of the organizer.

### Judging system

It will be used computer system which will record the votes of judges who will show their decisions using their hands, to point the red or blue side, or crossing their arms (or flags) in case of a tie.

The principal role of a judge lies in evaluating the athletes by comparing their relative skills round by-round - after each round of a battle the judges will vote. The battles will be judged by a minimum of three judges or another uneven number of judges.

### Draw

In the breaking, the competitors will be divided into competition groups by computer system

- Courses for the Middle distance and Sprint distance shall require, in particular, a high level of concentration throughout the course, detailed map reading and frequent decision making.
- The course lengths shall be given as the length of the straight line from the start, via the controls to the finish, deviating for, and only for, physically impassable features (buildings, high fences, lakes, impassable cliffs etc.)
- The total climb shall be given as the climb in meters along the optimum route.
- The course planner/s shall have experience of planning junior competitions at national/international level.
- The younger competitors U15 shall have some handrails (like roads, tracks or paths,...) on their courses.

### 1.1 Middle Distance Race

Categories Expected Winning Times:

M U15 19 – 21 min

W U15 19 – 21 min

- The winner will be the team that returns to the finish in the shortest time, having visited all the controls.

Two obligatory meeting points, manned controls A and B, will be marked on the map. At controls A and B, all three team members must meet and punch their e-cards, or control cards, together, at the same time. The teams will run together from the last control (point C) to the finish line, crossing the finish line all holding hands. The time of each team will be recorded as the last team member crosses the finish line.

- The Event must be in a public area where the people of the host town will be able to see a part of the event.

- The emphasis of the event shall be fun and co-operation between the young people rather than competition.

The expected winning time is 35- 40 mins.

## 2. Start procedure

Only competitors who have not started and team officials shall be allowed into the warm-up area.

- The competitor is responsible for taking the correct map.

- The point where orienteering begins shall be shown on the map with the start triangle and, if it is not at the medal start, marked in the terrain by a control flag but no punching device.

- Competitors who are late for their start time through their own fault shall be permitted to start. The organiser will determine at which time they may start, considering the possible influence on other competitors. They shall be treated as if they had started at their original start time.

- Competitors who are late for their start time through the fault of the organisers shall be given a new start time.

### 3. Finish and time keeping

- The maximum running times shall be:

- o Middle distance race: 2 hours

- Competitors shall be responsible for punching their own card at each control using the punching device provided. Competitors are responsible for correct punching. A competitor with a control punch missing or unidentifiable shall not be placed unless it can be established with certainty that the missing punch or unidentifiable punch is not the competitor's fault and that the competitor has visited the control. In this exceptional circumstance, other evidence may be used to prove that the competitor visited the control, such as evidence from control officials or cameras or read-out from the control unit.

- The Team entries will be seeded into four pools (four starting groups).
- A form for this will be offered to the teams online and in the Welcome Bulletin (team manual). Team managers/coaches will be responsible for declaring the starting order of their teams.
- The forms must be returned to the Event Office by 24 hours before each start. If the forms are not returned by this time, then the TC will decide the starting order of the missing team. NB This information MUST appear on the form.

Team officials, competitors, media representatives and spectators shall remain in the areas assigned to them.
  - Control officials shall neither disturb nor detain any competitor, nor supply any information whatsoever. They shall remain quiet, wear inconspicuous clothing and shall not help competitors approaching controls. This also applies to all other persons in the terrain, e.g. media representatives.
  - Having crossed the finish line, a competitor may not re-enter the competition terrain without the permission of the organiser. A competitor who re-enters shall announce this at the finish immediately and hand in the map and e-card or control card. That competitor or team officials shall in no way influence the competition nor help other competitors.
  - The use of mobile phones or other communication devices, by competitors and team officials, is forbidden in the quarantine, warming up and start area. An individual, or team, may be disqualified if an individual, or team official, break any rule.

## 2. Team ranking

▪ Team ranking – team results for each competition will be determined by adding the 3 best calculated points. The calculation will be as follows: (Winning time / personal time) X 1000 . The final ranking of the team will be decided by adding together the two team results (points) in the two different competition formats.

▪ The team that achieves the highest number of points by adding up these 6 calculated points will be the winner of the team ranking.

▪ Ties in team ranking – if there are 2 teams with the same total result, the team with the better result in the longest (distance) competition format will be the winner. If there is still a tie, then the team that has the runner with the better time in the longest competition format will be the winner. If there is further tie, the winner will be determined by the second runner with the best time, then the third and so on, until the tie of the teams is broken.
